REGULATIONS CONCERNING FIRE ALARM AND SPECIAL SIGNALS.

1. Alarms shall be designated as first, second, third, fourth, fifth, sixth and seventh; the seventh alarm is a general alarm. All alarms following a first alarm from the same box are to be termed as multiple alarms, and such alarms shall be given only by the officer commanding at a fire.

2. One or more multiple alarms may be omitted and the next in order given; in such case the response and covering to the multiple received shall include assignments of the alarms omitted.

3. For a first alarm three (3) rounds of the box number will be struck on tappers and two (2) rounds on gongs.

For multiple alarms (except the general), a preliminary signal, designating the specific alarm, *i. e.*, two (2) blows for a second alarm, three (3) for a third, four (4) for a fourth, five (5) for a fifth and six (6) for a sixth alarm to be followed by the box number will be struck one (1) round on both tappers and gongs.

4. SEVENTH, GENERAL ALARMS.

For response and covering on seventh, general alarms the city is divided into nine (9) sections each section given special assignments and a special number. For such alarms the signal will be a preliminary of fifteen (15) blows, followed by the section alarm number, followed by the box number, to be struck two (2) rounds on both tappers and gongs.

5. GENERAL ALARM SECTIONS.

Section 1.— All that part of Boston known as East Boston, Section alarm No. 21.

Section 2.— All that part of Boston known as Charlestown, Section alarm No. 22.

Section 3.— All that part of Boston, *North* of the center of Dover and Berkeley streets and that part of District 3 in South Boston, Section alarm No. 23.

Section 4.— All that part of Boston known as South Boston (exclusive of District 3) and North Dorchester to center of Savin Hill avenue and Stoughton street and *East* of Columbia road, Massachusetts avenue, the Midland Division, New York, New Haven & Hartford Railroad and the South Bay, Section alarm No. 24.

Section 5.— All that part of Boston known as City Proper (southern end) and Roxbury (northern end), *South of Section 3 and West of Section 4 to the center of Dudley street, Eliot square, Roxbury, Tremont and Francis streets, Section alarm No. 25.*

Section 6.— All that part of Boston known as Dorchester, *South of Section 4 and East of Columbia road and Blue Hill avenue to the Milton line, Section alarm No. 26.*

Section 7.— All that part of Boston known as Roxbury, *South of Section 5 to the center of Seaver street and Columbus avenue and following the old boundary line between Roxbury and West Roxbury to the Brookline line and West of Section 6, Section alarm No. 27.*

Section 8.— All that part of Boston known as Dorchester, West Roxbury and Hyde Park, *South of Section 7 and West of Section 6, Section alarm No. 28.*

Section 9.— All that part of Boston known as Brighton, *Section alarm No. 29.*

7. AUTOMATIC ALARMS.

Boston automatic alarms are despatched from the central office of that company; the signal for these alarms comprises the box number indicating the building location followed by a series of quick blows to indicate the floor -, struck two rounds on the automatic company tappers.

Example.

Box 34, sixth floor:

(- - - - -) (- - - - -)

A. D. T. Company alarms are transmitted from the company's central office to department office and from that office to department stations: The signal for these alarms comprises a preliminary of eleven (11) blows followed by the box number, struck two rounds on department tappers only.

Example.

Box 26:

- -

8. DRILL SCHOOL SIGNAL.

Two (2) blows struck three times, thus
--- --- --- on tappers, at 8 A. M. or at
12.30 P. M., denotes no session of Drill School.

9. MARINE CALL FOR FIRE BOATS.

Three (3) long and two (2) short whistle blasts
to be given by any boat and continued until
answered by fire boat.

10. RAILROAD SIGNAL FOR FIRE.

One (1) long and three (3) short whistle blasts,
repeated several times.

11. SIGNAL FOR COMPANY UNITS.

For the purpose of despatching company units
to a particular box the following signals will
be struck two rounds on tappers only:

(For engine companies) four (4) blows,
twice - - - - - - - - -

(For ladder companies) five (5) blows,
twice - - - - - - - - - -

(For rescue companies) six (6) blows,
twice - - - - - - - - - - -

(For tower companies) seven (7) blows,
twice - - - - - - - - - - -

The company number and box number to follow the apparatus designating signal in each case.

Example.

Call for Engine Company 10 to respond to Box 1612:

(- - - - -) (- - - - - - - - - - - -)
 (- - - - - - - - - - - -)

Call for Ladder Company 20 to respond to Box 3127:

- - - - - - - - - -
 - - - - - - - - - - - -
 - - - - - - - - - - - -

12. SIGNAL FOR HIGH PRESSURE SYSTEM.

In case the High Pressure System is out of service, eight (8) blows will be struck twice on tappers; when it is restored to service, nine (9) blows will be struck twice on tappers.

(See summary for signals regarding control of pressure, etc.)

13. PUBLIC SCHOOL SIGNAL.

One blow struck three times, thus 1-1-1-on gongs and three blasts of fire boat whistles, at 7.45 A. M., will denote no morning session of public schools and at 12.45 P. M. will denote no afternoon session.

14. EMERGENCY SIGNALS.

In case a telegrapher has not arrived at a box and a fire is of such volume as to warrant the immediate striking of a multiple alarm, such alarm may be ordered on the box telegraph key by the special code provided for same. See summary for code.

15. TELEPHONES.

When no response is received to a telephone call from the fire alarm office, the following signal may be struck on tappers; four blows, three times - - - - - - - - - - on receipt of which the officer in command will first try to communicate with office by station telephone and if failing to do so, then by some telephone adjacent to station.

16. SPECIAL CALLS ON TELEPHONE.

For calling of chief officers to telephone the *following signals* will be given:

For a district chief, seven rings - - - - -

For a deputy chief, three rings twice - - -

- - -

For chief of department, ten rings

EMERGENCY SIGNALS.*On Box Circuits Only.*

For ordering multiple alarm in absence of
 telegraphers:

A series of twelve or more quick taps on box
 telegraph key, followed by the number of taps
 (given slowly) to indicate the multiple desired;
 the office operator will then answer with the O. K.
 signal indicating he understands; the person
 giving the order will then pull the box.

Example.

Second alarm is desired, tap

----- - - (the operator will answer - - - -) then pull box.

Fourth alarm is desired

----- - - - - (the operator answers - - - -) then pull box.

In case the operator requires the signal to be repeated he will tap the REPEAT signal (- - -) (- - -) and the person giving the order will repeat the multiple signal he desires struck. Persons giving signals by this code are cautioned to particularly notice the signal they receive from the office operator.

All out, for any alarm in absence of telegrapher:

A series of twelve or more quick taps on key followed by five taps twice (given slowly) followed by tapping the box number.

Example.

All out for Box 3415

to this the operator, unless he requires the signal repeated, will answer with the O. K. signal.

TELEGRAPHERS.

Telegraphers will use the Morse code for transmission of messages.
